Description

MaxiPunch RGBW is available in two models – the Compact 102 and the Medium 302. This elegant fixture has been designed to complement most building façades, while its sleek profile and optional integrated mounting bracket provide full 3D rotational adjustment, making it highly versatile for a wide range of applications. Designers can choose between DMX RGBW or DMX Intelligent White, along with a variety of beam angles and housing finishes, ensuring the perfect specification for each project. Ideal for architectural lighting and landscaping, the MaxiPunch delivers a unique combination of performance, flexibility, and style that makes it a must-have solution for projects worldwide.
