

A night scene of a park with a large black lamppost and a string of lights. The lamppost has a series of bright white lights at the top, and a string of similar lights hangs from it, curving over a path. In the background, there is a large building with a gabled roof and a stone wall. The scene is illuminated by the warm orange light of the sunset or sunrise.

Description

The MaxiLED Globe Series — DMX White High Output (4000 K) delivers long, continuous runs of white festoon lighting to outline trees, landscapes, buildings and bridges. Built for permanent use with rugged, injection-moulded polycarbonate globes, heavy-gauge cabling and dependable Cree® LEDs, the system runs on 48 VDC MaxiLINK Data-Over-Power for DMX512 dimming over two cores and is rated IP68 / IK07. Single-strand runs up to 100 m (max 100 globes). Available in 64 mm Large Globe.
