

A large Christmas tree on the left is densely packed with red and white star-shaped lights. In the background, St. Paul's Cathedral is illuminated with blue light, and its windows are decorated with red and white circular lights. A crowd of people is gathered in the foreground, and a white fence with advertisements is visible at the bottom. The scene is set at night with city streetlights visible on the right.

## Key Features

- IP68
- IK07 (Impact resistance)
- 5 year Warranty
- 24V Low voltage
- 300+ Globes on a single power source
- Available in 2700K, 10,000K,  
Red, Green, Blue, Pink and Amber
- Available in Clear and Matt Lens

## Description

MaxiLED Small Globe strands deliver long runs of 32 mm globes to outline features in white or static colour. Built for permanent use, each strand uses injection-moulded polycarbonate globes, heavy-gauge cabling and sealed LED modules. Multiple static colours can be mixed on one strand. Small Globe – Static Colours (32 mm) delivers uniform colour along trees and landscapes. Running at 24V, it is rated IP68/IK07, has a 5-year warranty, and supports 300+ globes per power source - ideal for long, continuous festoon runs with minimal infrastructure and consistent ambience.
